

VALDECURIEL

ROBLE

D.O. RIBERA DEL DUERO

GRAPE VARIETY

Tempranillo 100%

PRODUCTION

17,000 Bordeaux bottles of 75 cl.

VINEYARD

The vineyards which give origin to this wine are located in Curiel de Duero (Valladolid), in the very heart of Ribera del Duero.

The vineyards of more than 15 and 30 years old, of Tempranillo variety, are located in our estate Valdecuriel, which has a very particular characteristic, its clay-chalk soils with the bedrock without fragmentation for at least on meter the surface. The other singularity is its height of about 850 m.

ELABORATION AND AGING

Harvested by hand, at their peak of ripeness in 15 kg boxes. The grapes are chosen at the selection table, and after the stems are removed. The grapes are vatted in deposits from the stainless steel. We perform a cold maceration, with the posterior alcoholic fermentation at about 25° C.

Thanks to the light ageing in the French and American oak barrels during 4 months, the wine is full of fruity aromas but with maturity and elegance.

WINETASTING

Characteristics Bright cherry red color with purple undertones that are typical of youth. The nose is intense, with predominance of Wood, notes of red fruits and flowers. In the mouth, a touch of red fruit, light acidity fresh with good distant spices, liquorice and cocoa.

Wine Matching and Serving Best to be served accompanied by varied tapas, white meat and pastas in general. Its optimum serving temperature is between 12° and 15° C.

Analisis	ALCOHOLIC STRENGTH	14,50 % vol.
	pH	3,87
	TOTAL ACIDITY (TARTARIC)	4,44 g/l
	VOLATILE ACIDITY (ACETIC)	0,55 g/l
	TOTAL SO ₂	65,00 mg/l
	FREE SO ₂	16,00 mg/l
	REDUCING SUGARS	1,80 g/l

Date of Winetasting January, 2012.
